Donation rather than recycle

Whitestone Chambers has worked with WeeeCharity to donate computers and other IT equipment to the charity. With the equipment that it has received the charity will be able to continue achieving its following goals:

- To protect and preserve the environment by recycling electrical waste to help reduce the amount of WEEE Waste that ends up in landfill through waste reduction, recycling, repair, refurbish and for resale back into the community.
- Train volunteers who are unemployed, or faced with disabilities or learning difficulties, with essential skills and knowledge in a safe working environment to improve their work ethic, to prepare them for full time employment.
- Relieve financial hardship by the recycling and provision of electrical and electronic items at no cost.

Further information about the charity and the great work that it does can be found at:
